PT. INDO REMPAH COMMODITIES

ABOUT US

PT. INDO REMPAH COMMODITIES (Formerly known as PT INDO COMMODITIES) incorporated in Jakarta, Indonesia in 2008 with a vision to become a leading and reliable import/export company, trading desiccated coconuts and produce/process various types of spices. The Company has now grown to be a supply channel for multiple products including, Cassia Vera, Cloves, Tamarind and Cashew nut. PT. Indo Rempah Commodities now operates with its' own warehouse facilities in North Sumatra and East Java

COCONUT PRODUCTS

Desiccated Coconut

We export three types of desiccated coconuts as per it's fat content.

- DC High fat (65% fat) - Fine & Medium Grade
- DC Low fat (50% fat) - Fine
- DC Low fat (43% fat) - Fine

Standard Packing: 50/25/10/7kg with inner poly liner and 3 ply kraft paper with or without PP bag

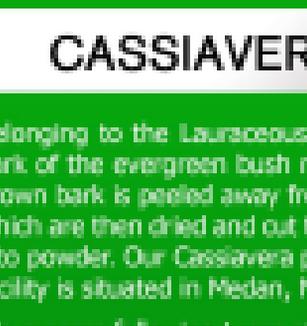

Coconut Sugar

Natural sugar, made from raw coconut sap which is the sugary circulating fluid of the coconut plant from lush Javanese landscape of Indonesia.

Coconut Chips & Coconut flakes

In addition to the Regular Cuts, Desiccated Coconut is also available in a variety of Fancy Cuts such as Chips and Flakes. It is also available in the form of toasted and sweetened versions.

Coconut Milk Powder (Vegan & Non Vegan)

Coconut milk powder (CMP) is produced from spray dried fresh coconut milk, hydrolyzed starch, protein (for non vegan), vegetable emulsifier (for vegan) and anticaking agent.

CLOVES

We engaged in collecting, processing and exporting cloves grown in Indonesia. Indonesia is widely known for its cloves harvested from the numerous islands with its fertile soils. We export high quality Lalpari cloves.

- Origin : Sulawesi/East Java/Manado
- Color : Redish Brown
- Moisture : 6-12%
- Stems : 2%
- Inferior Cloves : 2% max

CASSIAVERA PRODUCTS

Belonging to the Lauraceous family, Cassia Vera is the stem bark of the evergreen bush native to Indonesia. This reddish brown bark is peeled away from the bush in the form of quills which are then dried and cut to size / into thin strips or ground into powder. Our Cassiavera processing and warehouse facility is situated in Medan, North Sumatra

We process following types of Cassia Vera

Cut 6cm/8cm-AA & A

Packed in 1kg PE bags and packed into 20kg/25kg cartons

Broken Cassia

KABC - The Raw material is taken from the bark of main cassia trees (KA sticks).

- Scratch : Clean
- Colour : Yellow Brown
- Moisture: Max 14%
- Volatile Oil: Min 2.2%
- Packing : 50kg PP bag

KBBC- The Raw material is taken from the bark of branches of younger cassia trees.

- Scratch : Less Clean
- Colour : Dark Brown
- Moisture: Max 14%
- Volatile Oil: Min 1.5%
- Packing : 50kg PP bag

Cassia Vera A sticks

10cm - 60cm long, Packed in 50kg bales, 19-20MT in 40 FCL

TAMARIND

We export Fresh Golden brown Tamarind, harvested and collected East part of Indonesia. Our quality of fresh tamarind is always being maintained in Pakistan and Bangladesh due to it's freshness, golden color and fine packing.

CASHEW NUTS

Originated mainly from Eastern part of Indonesia, Indonesian cashew nut has inherent milky taste. These cashew nuts are graded into WW320 & WW240 and in 10/20kg vaccum packed
