

Plasindo Bhama Prasasta is a leading, certified-manufacturer of agricultural/horticultural sprayer in Jakarta, Indonesia. Established in 1986, we have been working in partnership with Solo Kleinmotoren GmbH - Germany, supplying to all over Indonesia and overseas markets. From the year to year production development and nation-wide market demand, Plasindo Bhama Prasasta has developed several series of products from manual, battery to motorised sprayers including mistblower, high pressure power sprayer pump, pvc reinforced hose and gardening accessories. We have an expansive national-wide distribution network, being a market leader in the field known for our product quality, credible services, and being reliable to both dealers and end-users. Apart from nation-wide distribution, Plasindo Bhama Prasasta exports to over 50 countries in the world, with a worldwide distribution network based on quality over price. Plasindo Bhama Prasasta is committed to developing and improving the quality of our products and services to promote customer satisfaction. Our mission is to always strive for excellence, continuously keeping up with new technological development and being committed to provide a timely delivery, giving technical solutions for both dealers and end-users to achieve high yields and quick returns.
