

Palemcraft  
NATURAL HOMEDECOR

Palem Craft is a well established business since 2003 based in Yogyakarta , Indonesia. We design and manufacture a wide range of home decor products such as hanging lamps, mirrors, and wall decors, utilizing locally and sustainably sourced materials. We work with local community groups who are specialized in the skilled weaving process, and we are continuing to develop these relationships towards our goal of a mutually beneficial and sustainable business ecosystem. Most of our products are made from a variety of waste natural material, such as bamboo, pumice stone, mahogany fruit, banana bark, butterfly leaf, seashell, etc. Besides that, Palem Craft Jogja always uses legal wood and owns VLK certification for our wood products. We also have CE, UL, and Vde certification. We can guarantee that our products are legal, safe, and eco friendly. We also use various finishing techniques to create the designs of our products, and it is available to be customized. To ensure the quality of our products, we have quality control personnels who strictly control the production process. We maintain control over the designing process, development, and all the other aspects of production. Our products can be shipped with containers, FCL or LCL. Our products have been displayed in several galleries in Indonesia and we have exported to various countries. We seek a long term relationship with all of our customers, with their satisfaction as our priority.
