

Equator Jingga has been a leading home furniture producer in Indonesia since 1998. We provide chairs, tables, chaise lounges, casegoods furniture, and upholstery for indoor and outdoor settings with 60% of sales from outdoor range products with average production of 42 containers per month and indoor ranges of 20 containers per month. We are operating 3 factories totaling approximately 12,000 sqm.

All of our products are made of natural materials such as teak, abaca, and rattan with contemporary design. We are committed to product quality and design. We constantly work with designers and individual buyers to produce custom designed furniture. Our products are ensured to originate from responsibly-managed and certified plantations.

Currently, our products have been distributed to the United States, Canada, Uruguay, Australia, and Europe and will continuously expand our existence.
