

Four parallel red lines of varying lengths, slanted downwards from left to right, located in the upper left quadrant of the image.

DENSIA

Smart Connectivity

A series of many thin, parallel red lines that curve and flow across the bottom half of the image, creating a sense of motion and connectivity. A small black and red rectangular element is visible in the bottom left corner.

About Us

Since its humble beginning in 2010 of supplying copper and fiber accessories, Surya Network has grown rapidly to become a company with a registered office, quicker new technology-adaptation as well as faster delivery time under the name of PT DENSIA to serve bigger demand and more clients.

Vision

Become preferred partner by energizing people and business to realize their full technology potential

Mision

Delivering products and services as complete solutions that are tailored exactly to the needs and desires of clients'

Business Value

The background of the slide features a series of white, wavy, concentric lines that create a sense of motion and depth, flowing from the left side towards the right. These lines are composed of many thin, parallel strokes that vary in length and curvature, giving the impression of a stylized wave or a series of overlapping paths. The lines are set against a solid black background, which makes them stand out prominently. In the bottom left corner, there is a small, solid black rectangular shape.

As one stop solution, we provide and deliver relevant high quality solutions to our clients.

There are 4 services that we offer to our clients:

- Consultation
- Solution Proposal
- Prompt Delivery
- Technical Support

• Consultation

Instead of overwhelming clients with offerings that may or may not be relevant to their situations, we set-up consultation sessions and conduct site surveys to get proper understanding of our clients' needs as well as challenges. Only then, we will propose best-suited solutions to ensure maximum impact resulted from our clients' purchases.

• Solution Proposal

For best-suited solution, we provide options of products and services for our clients to choose from.

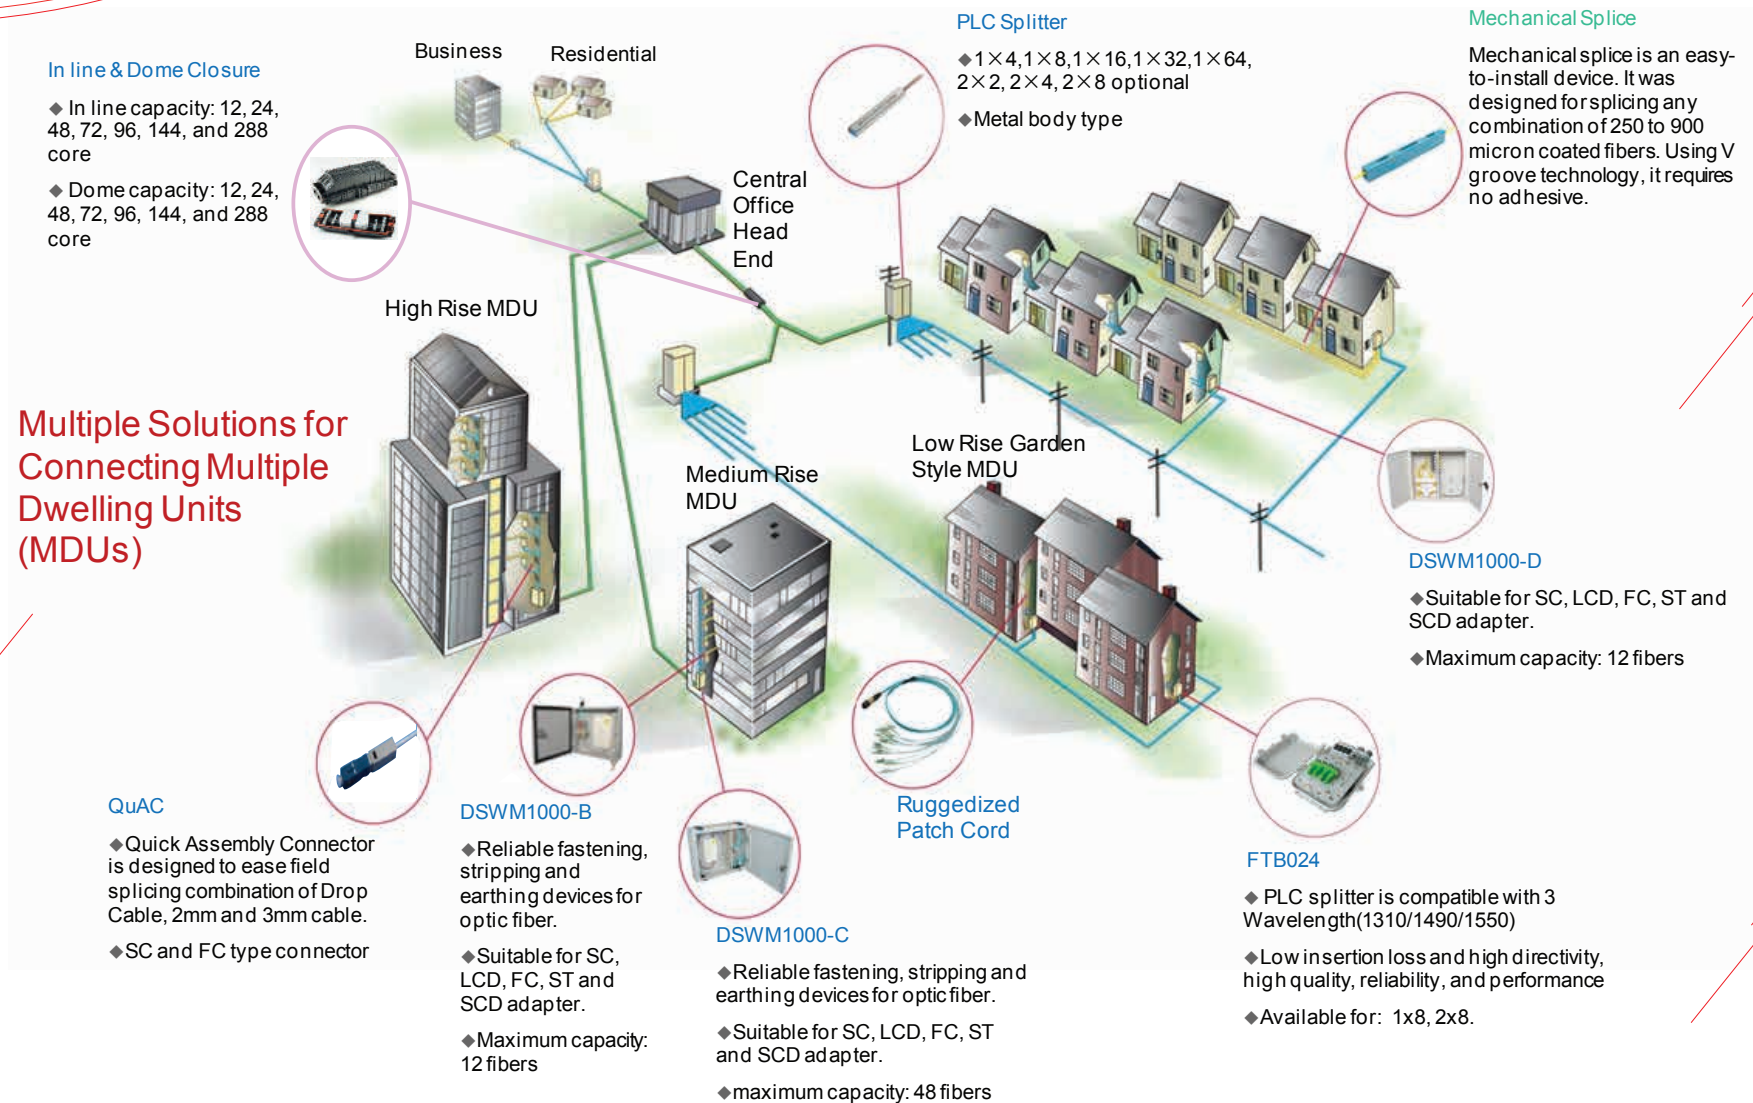

• Prompt Delivery

We go above and beyond to warrant prompt delivery starting from sufficient level of ready-stock goods available in our own inventory.

• Technical Support

Clients are stress-free from technical difficulties after purchasing our products and services. Trainings choices are available and can be conducted in house, at clients' sites, and by request.
