BACKGROUND

INDONESIAN SPICES

Indonesia is already known as a spice-producing country. Not only as cooking spices, native Indonesian spices have played an important role in the history of the world economy. Traders from various nations had come all the way to Indonesia to get spices, thus generating trade routes between continents.

Based on data released by the Food and Agriculture Organization (FAO) in 2016, Indonesia occupies the fourth position in the world as a spice-producing country.

In our own region of Sulawesi in Indonesia, We have worked and trained local farmers to manage clove, pepper and nutmeg gardens and work passionately to produce the highest quality products. We spend time with smallholder farming communities and are involved from early to mid to post-harvest.

Base our work on trust, integrity and respect that has proven to have long-lasting personal relationships.

Along with improving the quality of farmer products that are getting better, it also brings economic improvement for our society.

But our latest study shows that with this quality we can start marketing our products around the world with the hope of presenting our proud products to all of you and also a contribution. which is very meaningful for the economic progress of our society.

COMPANY PROFILE

PT. BUMI RUNUT BERSAMA

PT. Bumi Runut Bersama Indonesia started commercial operations in 2020. Its products are sold in domestic and overseas markets. We ourselves focus on Agriculture Industry.

PT. Bumi Runut Bersama Indonesia produce thousands of tons of Agriculture Product per month with various variants. We ourselves have several factories in Indonesia. In order to always meet customer demand and International Standards & Regulations.

CLOVES

Cloves are native to Indonesia and we are fortunate to have been involved with producing the fragrant bud from early on. They require a warm humid climate, preferring an ocean view, for which Indonesia is ideal.

To this day, Indonesia is the largest consumer and producer of cloves. Over 90% of the heady spice consumed within the country. With local knowledge, we harness the sweet and spicy notes of the flower into the evergreen bud. We offer a range of all natural clove products including whole, ground, spray dried, and extract.

Cloves are rich in manganese and known for their antiseptic properties. They are also associated with warming and soothing qualities derived from their eugenol content.

SPECIFICATIONS

• Quality	Lal pari
• Appearance	Cloves
• Color	Reddish Brown
• Drying Process	Sun dried
• Moisture	Max 12 %
• Foreign Matter	Max 1 %
• Inferior cloves	Max 2 %
• Essential content	Max 20 %
• FOB Price Per MetricTon	USD 9.800
• Capacity 20/40 ft Container	15-18 tons / 25-28 tons

SPECIFICATIONS

• Quality	AB 6
• Appearance	Cloves
• Color	Brown
• Drying Process	Sun dried
• Moisture	Max 13 %
• Foreign Matter	Max 1 %
• Inferior cloves	Max 3 %
• Essential content	Max 18 %
• FOB Price Per MetricTon	USD 9.440
• Capacity 20/40 ft Container	15-18 tons / 25-28 tons

SPECIFICATIONS

• Quality	AB 10
• Appearance	Cloves
• Color	Brown
• Drying Process	Sun dried
• Moisture	Max 14 %
• Foreign Matter	Max 5 %
• Inferior cloves	Max 5 %
• Essential content	Max 16 %
• FOB Price Per MetricTon	USD 8.168
• Capacity 20/40 ft Container	15-18 tons / 25-28 tons

WHITE PEPPER

White pepper, also called pepper or sahang, which has the Latin name *Piper nigrum* is a plant that is rich in chemical substances, such as pepper oil, fatty oil, and starch. White pepper is slightly bitter, spicy, warm, and antipyretic.

This plant has been discovered and known since tens of centuries ago. In general, people only know white and black pepper, which are often used as spices in the kitchen. This plant is one of the world's trade commodities and more than 80% of Indonesian pepper is exported to foreign countries. In addition, pepper has the title The King of Spice.

Pepper is one of the plants that reproduce by seed, but our farmers prefer to do the tapping to develop it.

SPECIFICATIONS

• Quality	Mutu 1
• Appearance	White pepper
• Color	white
• Process	Dobel wash
• Moisture	Max 13 %
• Foreign Matter	Max 1 %
• Density g/l	630 g/l
• Ash content	Max 3,5 %
• Black Berries	Max 1 %
• FOB Price Per MetricTon	USD 6.860
• Capacity 20/40 ft Container	15-18 tons / 25-28 tons

SPECIFICATIONS

• Quality	Mutu 2
• Appearance	White pepper
• Color	white
• Process	Dobel wash
• Moisture	Max 14 %
• Foreign Matter	Max 2 %
• Density g/l	600 g/l
• Ash content	Max 3,5 %
• Black Berries	Max 2 %
• FOB Price Per MetricTon	USD 6.300
• Capacity 20/40 ft Container	15-18 tons / 25-28 tons

NUTMEG AND MACE

Nutmeg is native to Indonesia and thought to be discovered by the Dutch. It is the only tropical fruit that is the source of two different spices, nutmeg and mace.

At a time when many companies are cutting corners to get the cheapest price for nutmeg, we offer only the purest small batches of the best nutmeg you can possibly find. We are at an incredible advantage because we are so close to origin and can Through a collaborative process and strong relationship with our farmers. Nutmeg is known for its detoxifying effects and its benefits regarding digestive health.

It is commonly used to add a spicy warmth to dishes. Use it in custards and pies or even use it to season meats and fish to add a depth of flavor.

DESICCATED COCONUT

Specification :

Grade	LOW FAT EXTRA FINE
Moisture Content, %	2.5 maximum
Total Fat (Dry basis), %	50 ±5
Drying Process Free Fatty Acid (as lauric) Dry basis, %	0.10 maximum
Residual SO2, ppm	Free
Moisture pH (10% dispersion filtrate)	6.1 to 6.7
Foreign Matter Total Aflatoxins, ppb (DL : 4 ppb)	None Detected
Organophosphorus pesticide residues, ppm (DL : 0.1 ppm)	None Detected
Packing Size	25 kg net weight in multiwall paper bag with inner polyliner.
FOB Price Per Metric Ton (USD)	\$1,422

DESICCATED COCONUT

Specification :

Grade	LOW FAT FINE (MEDIUM)
Moisture Content, %	4.0 maximum
Total Fat (Dry basis), %	50 ±5
Drying Process Free Fatty Acid (as lauric) Dry basis, %	0.10 maximum
Residual SO2, ppm	< 10
Moisture pH (10% dispersion filtrate)	6.1 to 6.7
Foreign Matter Total Aflatoxins, ppb (DL : 4 ppb)	None Detected
Organophosphorus pesticide residues, ppm (DL : 0.1 ppm)	None Detected
Packing Size	25 kg net weight in multiwall paper bag with inner polyliner.
FOB Price Per Metric Ton (USD)	\$1,899

DESICCATED COCONUT

Specification :

Grade	LOW FAT MILL RUN
Moisture Content, %	3.5 maximum
Total Fat (Dry basis), %	50 ±5
Drying Process Free Fatty Acid (as lauric) Dry basis, %	0.10 maximum
Residual SO2, ppm	< 10
Moisture pH (10% dispersion filtrate)	6.1 to 6.7
Foreign Matter Total Aflatoxins, ppb (DL : 4 ppb)	None Detected
Organophosphorus pesticide residues, ppm (DL : 0.1 ppm)	None Detected
Packing Size	25 kg net weight in multiwall paper bag with inner polyliner.
FOB Price Per Metric Ton (USD)	\$2,088

EDIBEL COPRA

Specification :

Grade	Edibel Copra
Moisture Content, %	6% maximum
Smoky, %	1%
Drying Process	Sunlight Drying
Size	6 cm to 9 cm
Foreign Matter Total Aflatoxins, ppb (DL : 4 ppb)	None Detected
Organophosphorus pesticide residues, ppm (DL : 0.1 ppm)	None Detected
Packing Size	70-75 kg per Gunny Bag
FOB Price Per Metric Ton (USD)	\$1,888

REGULER COPRA

Specification :

Grade	Edibel Copra
Moisture Content, %	6% maximum
Smoky, %	1%
Drying Process	Sunlight Drying
Diameters	9 cm to 15%
Foreign Matter Total Aflatoxins, ppb (DL : 4 ppb)	None Detected
Organophosphorus pesticide residues, ppm (DL : 0.1 ppm)	None Detected
Packing Size	70-75 kg per Gunny Bag
FOB Price Per Metric Ton (USD)	\$1,688

COCONUT COOKING OIL

Specification :

Grade	RBD COCONUT OIL
Appearance	Fully Liquid at above 26 Celsius
Melting Point	24 – 26 Celsius
Specific Gravity (40C/20C)	0,908 – 0,921
Free Fatty Acid as Luric Acid	Max. 0.07 %
Taste	Bland neutral taste, free from rancid or sour taste
Odour	Odorless, free from rancid odour
Colour (5 ¼ inch cell Lovibond)	Red: 0.6 Maximum Yellow: 15.0 Maximum
Packing Size	1L, 2L, 5L, 18L, and 20L
FOB Price Per Metric Ton (USD)	\$2,699/MT

COCOPEAT

Specification :

Grade	Low EC Cocopeat
Moisture Content, %	15% maximum
Standar Size (cm)	30 x 30 x 12
EC	< 0,5
pH	5,5 to 6,5
Expansion	75 Liter
Fiber	3%
Sand	2%
Weight	5 KGs Bloks or Customs
Foreign Matter	None Detected
FOB Price Per Metric Ton (USD)	\$344/MT

COCOPEAT

Specification :

Grade	High EC Cocopeat
Moisture Content, %	15% maximum
Standar Size (cm)	30 x 30 x 12
EC	> 0,8 Maximum 1,6
pH	5,1 to 6,5
Expansion	75 Liter
Fiber	3%
Sand	5%
Weight	5 KGs Bloks or Customs
Foreign Matter	None Detected
FOB Price Per Metric Ton (USD)	\$322/MT

COCO FIBER

Specification :

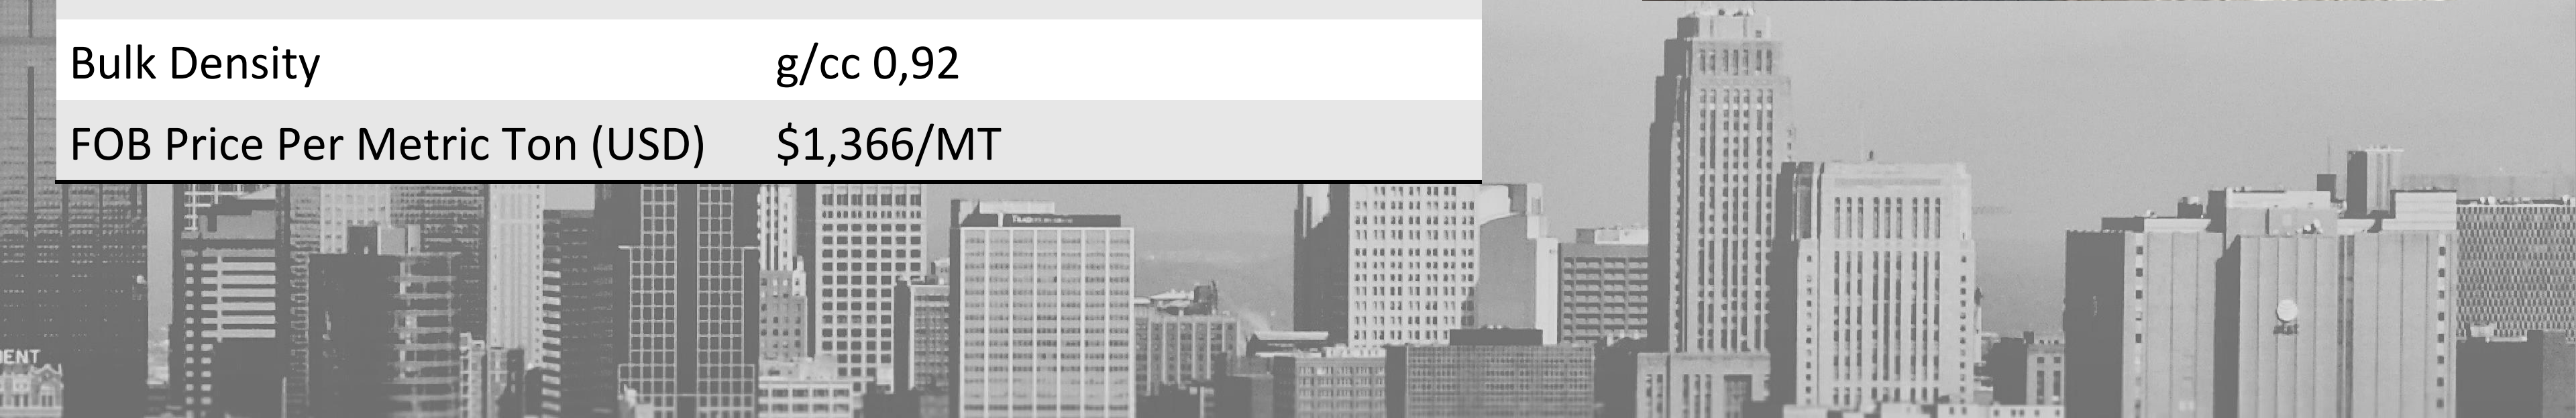

HS CODE	530500
Moisture Content, %	14% maximum
Dimension(cm)	110 x 80 x 40
Length of Fiber	>10cm
Drying Process	Sunlight
Color	Brown to Gold
Dust	Maximum 3%
Weight	75 Kg
Packing	Square or Ball Press
Foreign Matter	None Detected
FOB Price Per Metric Ton (USD)	\$288/MT

COCONUT BRIQUETTE CHARCOAL

Specification :

Moisture Content, %	6,4% maximum
Fix Carbon	Min 75%
Heat Content	Min. 600 c
Volarite Matter	Max. 15,3%
Ash Content	Max. 3%
Ignition Time	20 Minute
Glowing Time	Min. 2 Hour
Gross Calorie	Kca/Kg
Value	7180
Bulk Density	g/cc 0,92
FOB Price Per Metric Ton (USD)	\$1,366/MT

REGULATORY COMPLIANCE:

1. SO₂ residual : comply with Regulation No. EC Directive 2007/68/EC of 27 November 2007 & EC Directive 2003/89/EC.
2. Total Aflatoxins & Heavy metals : comply with Commission Regulation EU No. 165/2010 of 26 February 2010 amending regulation EC. No. 1881/2006.
3. Pesticide residues : comply with EC No. 396/2005 of 23 February 2005.
4. Microbiological : comply with EC No. 2073/2005.
5. Primary Packaging Materials comply with Regulations EC No. 2002/72/EC & FDA 21 CFR 177.1360 and 177.1500 and 177.1520.
